Paul,

Yes, you are correct that I can fulfill that requirement for Trust Lands. Also, OGM doesn't need to consult with SHPO for this undertaking since I've taken care of that under our Programmatic Agreement with them.

I didn't know who at OGM needed to be copied on my e-mail to John, so I relied on him pass along the information.

I hope that answers your questions. Please let me know if you need anything else.

Kris

Kris--

Normally when Oil, Gas and Mining receives a mining or exploration proposal, we recommend to SHPO whether historic properties will be affected. My understanding is that you can fulfill this requirement for Trust Lands. Is that correct?

I have a copy of an e mail you sent to John Blake on June 12 concerning the Southwest #1 mine operation proposed by Red Leaf Industries. You say no historic properties would be affected if they avoid the three eligible sites or mitigate. You also recommend a discovery clause.

My question is whether Oil, Gas and Mining needs to make a finding and receive SHPO's concurrence or if your finding of "No Historic Properties Affected" will suffice.

Thanks for your help.
